# OUR STORY

## **DARCHE. LEADERS IN OUTDOOR DESIGN. PROUDLY AUSTRALIAN SINCE 1991.**

DARCHE revolutionised the swag market when we introduced the dome style swag over 20 years ago. An authentic Australian brand known for superior quality products, we have extended our range to include sleeping bags, outdoor furniture and gear, in addition to the swag and tent ranges.

Darche is proudly owned by the Charles Parsons Group who bring over 100 years of textile experience, product development and strategy to compliment DARCHE's extensive outdoor expertise.

We expanded our range in the 4x4 touring market, and together with the launch of the revolutionary patented Air-Volution™ technology, DARCHE is embarking on an exciting future.

DARCHE products are designed for camping, 4x4 touring, fishing and hunting, and are tried and tested by people who live and breathe everything outdoors.

We use superior quality materials, and constantly develop and refine new materials and technologies to ensure DARCHE products are leaders in terms of innovation, quality and durability.

## **WHATEVER GETS YOU OUTDOORS... DARCHE HAS YOU COVERED! NO EXCUSES.**

# SWAGS

Designed to withstand harsh Aussie conditions, the DARCHE swag range will keep you comfortable all year round, no matter where you camp. With progressive styles such as the Dusk To Dawn and Nebula, these swags are feature packed with proofed polyester/cotton ripstop canvas, heavy duty waterproof PVC bucket floor and 50mm high-density covered foam mattress to name a few.

**Product Code: T050801206**

# MAX-TREME®

**DARCHE's famous Max-Treme® swag range is backed by a lifetime warranty and consists of premium classic models such as the Ridgedome. All models are constructed with proofed Max-Treme® 16oz ripstop canvas - providing strength, durability, maximum breathability and excellent water resistance.**

Our unique Max-Treme® is a specifically designed and constructed canvas used exclusively by DARCHE in our core range of swags. DARCHE are one of very few that still use a 100% cotton canvas composition in its core range of swags, which allows for maximum breathability, and super durability in our entire swag range.

- Super strong & durable with its 52 x 48 Ripstop weave
- Max-treme® is constructed using 100% cotton ring spun yarn, allowing maximum breathability, aiding in reducing condensation
- Proofed weight is an impressive 550gsm/16oz making it one of the heaviest swag canvas weights on the market today
- Proofing is conducted using a double pass dip & dry method, unlike many inferior imported poly/cotton canvases which use a synthetic blade coat PU method which eliminates all cloth breathability characteristics

## MAX-TREME® RIDGEDOME

Freestanding spacious touring style swag featuring an oversized centre ridge pole

- DARCHE's premium free standing swag
- 4-pole design provides exceptional room within
- Convenient 3 way entry
- Two side windows provide great ventilation

PATENTED TECHNOLOGY  
**EXCLUSIVE  
TO DARCHE**  
WWW.DARCHE.COM.AU

# AIR-VOLUTION™

**Air-Volution™ is a revolutionary new patented technology, developed by the team at DARCHE, that will simplify and redefine your camping and outdoor experience. This innovative technology means no traditional pole assembly is required, making set up and pack down easy and fast. Your adventures will never be the same again!**

## AIR-VOLUTION™ TECHNOLOGY

By replacing traditional swag poles with easy fast set up air poles, you can inflate your swag in less than 20 seconds, whilst the inflation time for the AT-4 four person tent is less than a minute. The air poles are made from puncture resistant thermoplastic polyurethane (TPU), and are encased in highly durable PVC/oxford polyester sleeves. All this means arriving at your campsite with peace of mind, and spending more time relaxing and enjoying what matters when outdoors!

## ENGINEERED FOR AUSTRALIAN CONDITIONS

Specifically engineered for Australia's unique conditions, the Air-Volution™ swag is the first of its kind in Australia, while the Air-Volution™ tents are designed to provide a spacious internal space, constant airflow, maximum ventilation and reduction of condensation. Uniquely, the attachment of the flysheet to the inner tent saves you valuable time when setting up.

With the air poles connected to the swag or tent, there are no more lost, broken or poles left behind, or jammed quick set-up frames. Gone are the days where families are left spending too much of their holiday time reading instructions and pinching themselves on fiberglass or metal poles.

The exclusive Air-Volution™ technology continues DARCHE's tradition of being the innovation leader.

Australian Patent No. 2015100383

# AIR-VOLUTION™

## AD SWAG

MODELS: 900, 1100, 1400

### THE NEXT GENERATION AIR-VOLUTION™ SWAG

## ECLIPSE 180/270 EXTENDED BRACKET

- Designed to fit most common roof rack configurations. However, with the ever increasing number of roof rack designs available it is difficult to supply a mounting bracket to accommodate all.
- With the addition of Darche's Channel bolts, the longer optional bracket is the perfect solution for attaching your Darche awning to a platform style roof rack.
- The bracket can also be mounted on roof bars, however, additional specific attachments may need to be sourced from your roof rack supplier. If in doubt, please visit your roof rack specialist for specific roof rack mounting options and advice on load capacities.

Product Code: T050801751B

## CHANNEL BOLTS

The Darche Channel Bolts provide the perfect solution for anchoring and mounting Darche Awning brackets and a wide variety of accessories to roof trays and roof bars

Each pack contains:

- 2 x M8 x 25mm Stainless Steel Channel Bolts (Base – 34mm x 19.5mm)
- 2 x M8 Nuts
- 2 x M8 washers
- 2 x M8 Spring Washers
