\* At DANCHE® we are constantly innovating and improving our products' features applications and benefits. All products featured in the DANCHE® Catalogue and on the DANCHE® website are subject to colour, price and specification change as we continue our development program. Due to the high natural cotton content in our canvas and the large surface areas; specifications and measurements listed in this catalogue are close approximations only, subject to commercial tolerances and accurate to +/- 1%. All accessories and props shown in illustrations are optional, unless otherwise stated. With the exception of all spares and accessories, and subject to certain exclusions, and unless otherwise stated, all DANCHE® products are covered by a limited two year warranty in Australia and New Zealand. Further details are available on our website. International consumers are covered by applicable warranties as stated in their respective consumer laws.

# OUR STORY

## **DARCHE®. LEADERS IN OUTDOOR DESIGN. PROUDLY AUSTRALIAN SINCE 1991.**

DARCHE® revolutionised the swag market when we introduced the dome style swag almost 30 years ago. An iconic Australian brand known for innovative, superior quality products, we have extended our range to include sleeping bags, outdoor furniture and gear, in addition to the swag and tent ranges.

DARCHE® is proudly owned by the Charles Parsons Group who bring over 100 years of textile experience, product development and strategy to compliment DARCHE®'s extensive outdoor expertise.

We have become leaders in the 4x4 touring market, and together with the launch of the revolutionary patented Air-Volution™ technology, DARCHE® is embarking on an exciting future.

DARCHE® products are designed for 4x4 touring, camping, fishing and hunting, and are tried and tested by people who live and breathe everything outdoors.

We use superior quality materials, and constantly innovate, refine and develop new materials, designs and technologies to ensure DARCHE® remains one of the most respected touring brands globally.

## **WHATEVER GETS YOU OUTDOORS... DARCHE® HAS YOU COVERED!**

# SWAGS

Designed to withstand harsh Aussie conditions, the DARCHE swag range will keep you comfortable all year round, no matter where you camp. With progressive styles such as the Dusk To Dawn and Nebula, these swags are feature-packed with proofed polyester/cotton ripstop canvas, heavy duty waterproof PVC bucket floor and 70mm/2.75" high-density covered foam mattress to name a few.

# MAX-TREME®

**DARCHE®**  
RIDGEDOME

DARCHE's famous Max-Treme® swag range is engineered and built to last a lifetime of use in the toughest environments. All models are constructed with proofed Max-Treme® 550gsm/16oz ripstop canvas - providing strength, durability, maximum breathability and excellent water resistance.

Our unique Max-Treme® is a specifically designed and constructed canvas used exclusively by DARCHE in our premium range of swags, allowing for excellent breathability and super durability.

- Super strong and durable with its 52mm x 48mm Ripstop weave
- Proofed weight is an impressive 550gsm/16oz making it one of the heaviest swag canvas weights on the market today
- Proofing is conducted using a double pass dip and dry method, unlike many inferior imported poly/cotton canvases which use a synthetic blade coat PU method which eliminates all cloth breathability characteristics

## MAX-TREME® RIDGEDOME

Free-standing spacious touring style swag featuring a unique centre ridge pole

- DARCHE's premium free standing swag
- 4-pole design provides exceptional room within
- Convenient 3 way entry
- Two side windows provide great ventilation
- Large all-weather foot awning
- Zip down head wall
- Proofed Max-Treme® 550gsm/16oz canvas
- Heavy duty, HF welded, laminated 600gsm/18oz PVC bucket floor

- Super-fine 125gsm/3.7oz insect mesh
- 70mm/2.75" poly/cotton covered high-density foam mattress
- No.10 easy action zips
- Premium cotton/poly core spun sewing thread
- 16mm/13mm dia. alloy trigger lock ridge pole
- Anodized Hi-tensile 9.5mm/0.4" dia. 7001 alloy poles

# AIR-VOLUTION™

**Air-Volution™ is a revolutionary patented technology, developed by the team at DARCHE, that will simplify and redefine your camping and outdoor experience. This innovative technology means no traditional pole assembly is required, making set up and pack down easy and fast. Your adventures will never be the same again!**

## AIR-VOLUTION™ TECHNOLOGY

By replacing traditional external swag poles with integrated, easy-set-up air poles, you can inflate your swag in less than 20 seconds, and an AT4 tent in under a minute. The air poles are made from puncture resistant thermoplastic polyurethane (TPU), and are encased in highly durable PVC/oxford polyester sleeves. This means arriving at your campsite with peace of mind, setting up quickly then spending more time relaxing and enjoying the outdoors.

## ENGINEERED FOR AUSTRALIAN CONDITIONS

Designed for Australia's unique conditions, the Air-Volution™ swag is the first of its kind in Australia, while the Air-Volution™ tents are designed to provide a spacious internal space, constant airflow, maximum ventilation and reduction of condensation. Uniquely, the attachment of the flysheet to the inner tent saves you valuable time when setting up.

With the air poles connected to the swag or tent, there are no more lost or broken poles, or jammed quick set-up frames. Gone are the days where families are left spending too much of their holiday time reading instructions and pinching themselves on fiberglass or metal poles.

The exclusive Air-Volution™ technology continues DARCHE's tradition of being industry leading innovators.

Australian Patent No. 2015100383

## AD SWAG

MODELS: 900, 1100, 1400

### THE NEXT GENERATION AIR-VOLUTION™ SWAG

The next generation AD Swag will see camp being set up faster than ever before. With one inflation point, the high capacity hand pump will inflate the entire swag in less than 20 seconds

**TIP: Convert the storm covers to awnings and create ultimate ventilation with DANCHE Swag Awning Poles (sold separately).**

# 4X4 TOURING

A dark-colored 4x4 vehicle, likely a Land Rover, is parked in a forest. A large, light-colored roof tent is mounted on the roof rack. A ladder is extended from the side of the vehicle to the ground. The scene is set in a wooded area with many trees, and the sun is low in the sky, creating a warm, golden light. The ground is covered with dry leaves and twigs.

With our nearly 30 year heritage in swags and tents, it was a natural evolution for DARCHE to expand its 4X4 touring offering. Constructed and engineered to specifically suit Australia's rugged touring conditions, the complementary range includes the Panorama 2 roof top tent with annex, Hi-View Gen 2 roof top tent range with annexes, the Eclipse vehicle awnings and Xtender Awning Tent. Featuring the famous DARCHE quality and design, the 4X4 touring range will perform and last.

PANORAMA 2

MODEL: 1400

DARCHE's premium roof top tent with 'low profile' pack down

- Orange coated HD compressed checker-plate base board
- Built-in adjustable trigger lock canopy pole
- 320gsm/9.5oz poly/cotton ripstop canvas with 1500 PU waterproofing

## ECLIPSE AWNINGS

MODELS: 2X2.5, 2.5X2.5, 1.4X2

Specifically formulated  
polyamide super  
flex hinges

- Designed to maximize UV block out and direct sunlight.
- Specifically formulated Polyamide pivoting hinges are highly crack resistant and super flexible, reducing component stress.
- Twin channel alloy profiles allow secure and space saving pole pack away.
- Alloy profiles finished with end caps, ensuring no sharp edges are exposed.
- Black anodized alloy twist lock poles.
- Mould treated 320gsm/9.5oz proofed cotton poly Ripstop canvas
- PU coated 2000mm water head with HF seam sealing tape
- Raw edges are bound with canvas - twin needle stitching ensures strength and reliability.
- 600gsm/18oz laminated PVC transit cover.
- Transit cover features a No.10 self-repairing coil zip, eliminating zip jam whilst providing robust protection against road grime, dust and weather.

## ECLIPSE AWNING ANNEX 2525

Use as an eatery or sleeping room  
with excellent ventilation

- Additional protection from the elements
- Can be used as an eatery or sleeping room
- All seams are heat sealed preventing water ingress
- Available in 2.5m wide and ideal when paired with the Eclipse Awnings
- 210 Denier mould treated rip-stop polyester oxford material provides durability, and reduces the weight placed on the awning rafter arms and legs when compared to heavier poly cotton canvas options.
- 2000mm water head PU coated
- 250gsm PVC zip on/off floor
- Sides feature a door and gusset window allow for adequate ventilation in wet conditions, and a generously sized side door
- Rear door allows easy access to the vehicle
- Large front mesh window with roll up blind can be erected for additional shelter
- 8 adjustable tension straps
- Sturdy No.8 coil self-repairing zip and nickel eyelets
- Thick gauge pegs
- Pair with Eclipse Annex Adjustable Pole (170-240cm) - sold separately

## ECLIPSE 180/270 EXTENDED BRACKET

- Designed to fit most common roof rack configurations. However, with the ever increasing number of roof rack designs available it is difficult to supply a mounting bracket to accommodate all.
- With the addition of DARCHE's Channel bolts, the longer optional bracket is the perfect solution for attaching your DARCHE awning to a platform style roof rack.
- The bracket can also be mounted on roof bars, however, additional specific attachments may need to be sourced from your roof rack supplier. If in doubt, please visit your roof rack specialist for specific roof rack mounting options and advice on load capacities.
- Sold individually
- Product Code: T050801751B

## CHANNEL BOLTS

The DARCHE Channel Bolts provide the perfect solution for anchoring and mounting DARCHE Awning brackets and a wide variety of accessories to roof trays and roof bars

### Each pack contains:

- 2 x M8 x 25mm Stainless Steel Channel Bolts (Base – 34mm x 19.5mm)
- 2 x M8 Nuts
- 2 x M8 washers
- 2 x M8 Spring Washers
- Product Code: T050801850
